Petition Mailbox  
DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Michael Roth

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Access to a Free and open internet that is available to everyone in the world is what developers of the World Wide Web intended. Many users of the web are unaware that access availability is only free and open if the FCC makes and strictly enforces rules to protect our access. I can only imagine the incredible creative thinking, inventions, research breakthroughs, etc. the internet will foster simply by being free and open to EVERYONE. It will be phenomenal! Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Thank you.

Sincerely,  
Mr. William Wolverton

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Taking a public utility and allowing different classes of customers to that utility is not in the public interest, which I believe is the purpose of the FCC.

Sep 10, 2014

Petition Mailbox  
DC 20036

Subject: Protect Internet Neutrality

Dear Commissioner Wheeler,

The Internet is a telecommunications service, and as such should be treated as a utility, a common carrier, rather than as the property of such profit seeking corporations as ATT, Comcast, and Verizon. The Internet's role as an open and accessible platform for public discourse is vital to American democracy.

Letting well-financed interests build fast lanes for the few will harm all citizens. Gigantic for-profit corporations will always be able to afford special access. Small start-ups, independent organizations and non-profit voices will suffer.

The FCC must reject outright any plan that would allow corporate gatekeepers to control web traffic or data transfer speed and commit to a permanently Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Thomas Dukes

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Michele Womack Dennis

Petition Mailbox  
DC 20036

Subject: Keep our Internet free!

Dear Commissioner Wheeler,

The Internet has become our 21st-century soap box as well as the public square! It's the only way we have to express ourselves without all the money the corporations have! We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. You claim to support an open neutral internet, so now it's the job of the FCC to reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

**KEEP OUR INTERNET FREE AND NEUTRAL!**

Sincerely,  
Ms. Helen Shoup

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Nancy Beaudrot

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mrs. Joyce Murchie

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy. It also facilitates commerce and creates jobs.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility. It is just as much a public utility as a telephone. It is used more than the phone to contact others and share information. Please do the right thing by the vast majority of the people in this country who have grown to depend on the net as a toll free way to communicate with each other and our legislators. The net was developed by taxpayers dollars and it is wrong to allow big corporations to take it over.

Sincerely,  
Ms. Barbara Ann Burnette

Subject: Don't let the US fall behind other countries!

Dear Commissioner Wheeler,

The internet is no longer an option. It is an assumed necessity for daily life. It is necessary to perform required functions in education, finances and health-related issues. It is far beyond a vehicle for education.

Many other countries, including those with fewer resources, have internet that is faster and more efficient.

As an individual, it is more and more demoralizing to watch more and more of our resources, elections and even freedoms being controlled by deep pocketed corporate voices.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

While I understand the political difficulties involved, I believe it is utterly essential that the FCC invoke Title II Common Carrier rules when it comes to last mile ISPs.

The bald fact is that Internet access is at least as fundamental, and certainly as essential to modern life as the telephone was in the days when carrier regulation was created. Universal service and regulation were fought tooth and nail then, but one would be hard pressed today to find anyone on either side of the political divide who would not agree that it served, and fulfilled, an important purpose.

Net neutrality **MUST** be achieved and preserved. Internet access **IS** a utility industry, one in which competition is all but non-existent in most of the U.S..

Sincerely,  
Mr. Alan Gilbertson

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

Our Democracy is precious. Why not protect it?

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Dr. Patricia Richard-Amato

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

I have been using the internet from its very beginning almost, at least since the early 1990s when there was mostly just email access. Please don't shut small businesses and small organizations out of the internet by having a two tier system. They can't compete with Amazon and other large corporations in paying for access. Please keep the internet free and open. It is part of our Freedom of Speech and Freedom of Press rights.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Adam Nazimowitz

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Tanya McCabe

Ms. Katherine O'Sullivan

Meditate on the last 18th century, when inequality had reached its logical extreme in France. The equalizing revolution, when it finally flamed into manifestation, was massively destructive of life and property. If this society continues to be split into the rich and the impoverished, the last vestiges of "democracy" will be lost, and communities will lose the support and cooperation that have characterized them when there was a certain commonality among us.

You think I'm exaggerating? I hope you are right. At present, net neutrality should be preserved--one step in the right direction at a time of national milling around.

Sincerely,

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy. That is why it has to remain neutral. If you allow Comcast to take over Time Warner, net neutrality will end, as Comcast wants to build different speed lanes, charging more for the fastest, and perhaps not allowing those with little \$\$\$ to use the internet.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility. So that is what you must do!

My job would not be possible without an open internet. Net neutrality is a necessity to our economy, especially small businesses, as well as our freedom. The rights to free speech, freedom of the press, and the freedom to petition would all be compromised without net neutrality. Please protect internet freedom, for our own personal liberty, as well as the ability to do business in a global economy. Don't send the US back in time.

Sincerely,

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

I support a free and open internet! It belongs to all of us. I use it to gather information about political candidates, learn about issues and join groups of like interests.

If a group of well-financed interests are allowed to build "fast lanes", everyone will be harmed. There is already too much corporate control over our government and now they want to have special access while others who are not as well-financed will suffer.

I am asking the FCC to reject any plan that would allow corporate gatekeepers to control web traffic. I am asking the FCC to recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Carol Cate

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Mr. Richard Khanlian

If you have to be special to get a message through immediately, we will see big public health problems. Epidemics can grow quickly and it is usually not the rich who see the first signs. Often the original observers do not recognize the significance of their observations.

We need the internet to be open to all for the benefit of our society.

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Paula Propst

Dear Commissioner Wheeler,

I am very upset with the direction that monied and powerful interests are taking our country, in virtually every area of our lives...The general public is not being well served by them and the overwhelming majority of Americans are losing out to them.

"We The People...", not "We The Rich and Powerful Corporate and Political" is how our Constitution begins. Just because the Supreme Court has forgotten that, doesn't mean the FCC should forget it too.

You MUST reject any plan that would allow corporations to dictate and control internet traffic. Broadband is a Utility and should be classified as such and should be fairly shared among all users. There should be no "Fast-Lanes" for special interests.

I urge you to act in my best interests and in the best interests of the American People and defend Internet Neutrality.

Sincerely,

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Broadband has a lot of similarities with the power industry. Both were seen as a luxury when they were rolled out. Both have high cost for getting into the market (coax/fiber optic lines are expensive to lay out). And both industries developed into monopolies. The power industry is regulated now, but broadband is not. This needs to be fixed.

Sincerely,

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Susan Diederich

Dear Commissioner Wheeler,

The American way of life (not its bureaucracy) has produced many examples of serendipity over the past couple of centuries, but perhaps none more powerful than the Internet. I ask that the FCC not kill this open, vibrant, and valuable tool that continues to improve communications and information in countless ways by turning it into another cable TV business.

The Internet is our 21st century public square and highspeed highway. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Ms. Erma Lewis

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

I feel strongly that the Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Judith Davis

DC 20036

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,  
Dr. Suzanne Kirby

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is the 21st century's freedom of speech.  
Do not sell it and destroy a major principle of democracy.

Sincerely,  
Mrs. Pepi Streiff
